*Disclaimers: This rate assumes you are purchasing a Homewise home as your primary residence. Annual percentage rate (APR) is the true yearly cost of your loan including any fees or costs in addition to the actual interest you pay to the lender. Example: A \$496,000 loan amount with a 30-year term at an APR of 6.107% with a down payment of 2%, and a second mortgage of \$133,800 with an APR of 6.076%. Estimated monthly payments do not include amounts for taxes and insurance premiums and the actual payment obligation may be higher. Borrower must meet loan eligibility and credit qualifications. Contact Homewise for details.
